# **The Fragile Teen Brain:**

*How Drugs & Alcohol Affect its Development*

**with Dr. Stephen Dewey**

Back by popular parent demand, Dr. Dewey discusses how our ever changing and vital organ, the brain, can be affected by caffeine, nicotine, alcohol and other drugs especially if introduced during adolescence.

*This presentation is in celebration of  
National Drug & Alcohol Facts Week,  
a national health observance for teens to  
SHATTER THE MYTHS about drugs and alcohol.*

Wednesday, January 27, 2016  
7:30PM

*Dr. Stephen Dewey is an Investigator  
at the Center for Behavioral &  
Molecular Imaging at the Feinstein  
Institute for Medical Research at  
North Shore LIJ Hospital. He simply  
shows parents and teens what he sees  
everyday through his research.*
